“Improve Safety,  
Reduce Costs...”

Safety spot

**IMPCO Technologies offers the J.W. Speaker LED vehicle lighting solutions for forklift trucks such as LED emergency, warning and worklights.**

J.W. Speaker's lighting solutions stand out in their build quality and light output and are therefore the preferred choice in harsh industrial environments.

- ✓ Tough polycarbonate housing resists against corrosion
- ✓ Rugged solid state LEDs can withstand shock & vibration
- ✓ Long-lasting LEDs mean never having to replace another bulb again
- ✓ High effective Lumens
- ✓ Flood, spot and trapezoid beam patterns available
- ✓ Universal pedestal mount
- ✓ Reverse voltage protected
- ✓ Most models available in 12V and 12V - 48V DC operating voltage
- ✓ CE approved

**BLUE SPOT**  
Model 770 BLU

This model projects a bright blue spot onto the ground as a visual warning for pedestrians to promote greater safety on the workflow. Also available in a version that projects red (Model 770 RED). Produces 1,100+ Lux. Can be used in combination with special flasher relay.

### WORK LIGHTS

Model 771 XD, Model 770 XD

The toughest work lights around with 900 Raw Lumens; 700 Effective Lumens. Available in flood, Spot or Trapezoid beam patterns. UV-resistant polycarbonate lens.

### LED MAST LIGHT

Flood beam pattern, die-cast aluminium housing for maximum protection. Weather-proof integrated Deutsch connector.

### LED STOP, TAIL, TURN & BACKUP LIGHT

Sturdy ABS housing and acrylic lens resists scratching and scuffing. Sealed to IP67. ECE compliant. Low profile mount.

### LED FLASH LIGHT

12 - 80V LED strobe light operates in 5 different flash modes. Magnetic mount or universal mount options. Choose from amber, blue, green or red lenses. ECE compliant. Acrylic lens resists scratching and scuffing. Die-cast aluminium housing provides maximum protection.
